Door of Hope Grief Group

Support Group for Teens Who are Experiencing a Suicide Loss

Surviving a loss by suicide can be an isolating and confusing experience for anyone. Children and teens are especially vulnerable because most often they are left alone to make sense out of this loss.

Many do not share with their peers what they are experiencing and may also keep it from their families because they don't want to cause them any more pain.

This group will be an 8 week therapeutic group.

The group will help survivors process their grief among their peers in a safe environment.

Cost of the group is \$280 if paid prior to the first group or \$40 weekly.

Group will begin in January 2014
